

The following table shows results from the 2007 Census of Agriculture. The two columns of data represent all farms (47,463) and those farms and ranches classified as Beef Cattle operations (16,819).

For most items, the table shows how many farms there were with the specific item and the acres, the number of cattle, or the sales from those farms. For example, there were 8,858 farms in Florida reporting sales of fruit, tree nuts, or berries, with sales of over \$2 billion. Among the 16,819 beef operations, there were 194 with sales of fruit, tree nuts, or berries, with a value of sales of \$15,476,000.
